X4 Labs Extender Review

Update It has come to my attention that some users of the X4 Labs extender have found it to be ineffective. For example, I found this user comment from the X4 Labs forum:

"It has been 1 month for me using the penis extender. I have used it for 2 to 4 hours a day (and take a rest 1 day every 2 or 3 days of usage). But when I measure, it seems that my penis is shrinking instead of growing, I don't know why. Is there any suggestion for me? Did I do overdo it or what? Anyway, I m still doing it and still hoping for the improvement.." - Actual Consumer Comment from the X4 Labs forum

For this reason, I'm lowering my ranking for this extender. Please [click here](#) to see the top ranking extenders.

Of all the penis stretchers I've used, the [X4 Labs extender](#) is no doubt the most comfortable to wear. More comfort means you can wear it for longer periods of time, which ultimately means faster gains in penis length.

Unlike the typical penis stretcher, which stretches the penis with a silicone noose that cuts off circulation and causes pain, the [X4 Labs stretcher](#) comes with a layer of memory foam that wraps around and cushions your penis. A comfort strap then fastens the foam to the extender. This design provides the ultimate comfort in a penis stretcher.

Another big plus is that the [X4 Labs extender](#) costs less than all the other penis stretchers I've used. There are several versions of the X4 stretcher to choose from. The [Starter Edition](#) will only give you up to 7" flaccid length, so I would recommend that you get the [Deluxe Edition](#) if you wish to go past 7" flaccid. (I've included a brief explanation of each edition further down this page.)

Another good thing is that the [X4 labs extender](#) comes with a money-back guarantee. You get your money refunded if you don't see gains after using the stretcher for 6 months. This guarantee doesn't apply to the [Starter Edition](#) though, which is another reason to get the [Deluxe Version](#).

All in all, the [X4 Labs stretcher](#) will give you the **most gains** at the **highest level of comfort** for the **lowest price**. For these reasons I give it five out of five stars.

The XL Labs extender is available as 4 main editions: [Starter](#), [Deluxe](#), [Gold](#) (also called Gold Deluxe), and [Gold Premium](#). For a comparison chart of the different editions [please click here](#).

The main differences between editions are: 1)the finish (nickel-brass or 24k gold) – choose gold if you have sensitive skin, 2)strength in tension springs – the higher the tension, the more the traction, and the more length and girth gains in shorter time, 3)warranty duration – longer warranty periods come with more advanced editions, and 4)the number of spare parts and other bonuses included in package – more stuff is included with more advanced editions.

[Starter Edition:](#)

- Gains up to: 7" flaccid
- Extender Description: penis extender with comfort strap and memory foam, nickel-brass finish, 1500 grams tension springs
- Bonuses: \$25 gift certificate, instructional CD (on how to effectively use extender)
- Warranty: 1 year
- Price: \$124.95 (with promo code DISC75)

Comments – You only get limited gains due to the lack of additional extension rods in this edition. I would highly suggest that you check out the [Deluxe Edition](#). But if you'd like, you can [check out the Starter Edition here](#).

[Deluxe Edition:](#)

- Gains up to: 12" flaccid
- Extender Description: penis extender that can be used with either silicone noose or comfort strap (hybrid system), extension bars, silicone nooses and memory foams, extra comfort straps, nickel-brass finish, 1500 grams tension springs
- Bonuses: \$25 gift certificate, instructional CD
- Warranty: 5 years
- Price: \$220.95 (with promo code DISC75)

Comments – [Deluxe Edition](#) is the most popular and is the one I personally used. It will help you to gain up to 12" flaccid in length using extension bars, which are not included in the [Starter Edition](#). Also, the [Deluxe Edition](#) offers you a choice of using either the silicone noose (with memory foam) or the comfort strap (again, with memory foam). The silicone noose is less comfortable but is easier to attach, while the comfort strap offers more comfort but takes a moment longer to attach. I prefer the comfort strap as it is more comfortable to wear for long periods of time.

[Gold Edition:](#)

- Gains up to: 13.5" flaccid
- Extender Description: hybrid extender (as in [Deluxe Edition](#)) with 24k gold finish and 1800 grams tension springs; all the spare parts in Deluxe Edition plus these extra spare parts - 2 silicone nooses with memory pads, 2 comfort straps with memory pads
- Bonuses: \$50 gift certificate, instructional CD, Better Sex Guide DVDs, PenisAccess.com exercise membership
- Warranty: lifetime
- Price: \$320.95 (with promo code DISC75)

Comments: If you have sensitive skin, then the [Gold Edition](#) with its 24k gold finish will be ideal for you. I personally find that the [Deluxe Edition](#) serves my needs well, and that 12" flaccid is already too long when it comes to convenience during sex, without needing to gain up to 13.5" flaccid. However, if you prefer the 24k gold finish, longer flaccid length, and the extra bonuses, then by all means go for the [Gold Edition](#).

[Gold Premium:](#)

- Gains up to: 15.5" flaccid
- Extender Description: 3-in-1 hybrid extender (can be used with any of 3 setups: silicone noose, comfort strap, or "custom loop fastening" which provides more support and comfort than the previous two) with 24k gold finish and 2100 grams tension springs; all the spare parts in [Gold Edition](#) plus these extra spare parts – 4 loop-fastening bands, 2 silicone nooses with memory pads, 2 comfort straps with memory pads
- Bonuses: \$50 gift certificate, girth edition base, instructional CD, Better Sex Guide DVDs, PenisAccess.com exercise membership, extender cleansing spray, training lubricant, topical spray (to increase stamina and erection strength)
- Warranty: lifetime
- Price: \$420.95 (with promo code DISC75)

Comments: I haven't tried the [Gold Premium Edition](#) but this is the only edition that comes with the "custom loop fastening" system, which is supposed to provide the most support and comfort as compared to the other setups (i.e. silicone noose / comfort strap). Also, this edition has the highest-tension of 2100 grams, which will exert enough traction to gain up to 15.5" flaccid length. If you need to achieve this level of gains, desire the highest level of comfort, and has the budget, then do consider the [Gold Premium Edition](#). On the other hand, if 12" flaccid is enough for you, and you don't have very sensitive skin, then the [Deluxe Edition](#) should serve your needs for much cheaper.

In addition to the 4 editions described above, there's also the [Peyronie's Edition](#) which aims to correct penis curvature. Also included in this package are Vitamin-E Boost pills to aid in curvature correction. If you wish to straighten out your curved penis, this option will be effective for you. [Check out the Peyronie's Edition here.](#)

Also, there are 3 options you can choose from to add onto any of the above editions. If you are on the small side

(as small as 2.2" flaccid), you can choose to include a mini support piece with your purchase. If you have large girth, consider getting the girth base along with your extender. If you want better support, which translates into better gains and more comfort, consider getting the quad support piece, which allows you to use 2 comfort straps or silicone nooses to hold down your penis. The quad support will also eliminate the possibility of slippage, which sometimes occurs with the regular support piece.
